Clinical Example Report
Attn: Example Reports
200 Welsh Road
Horsham, PA 19044

Patient Name 4047B
Patient ID 4047B
Chain 14001780
DOB Not Given
Sex Not Given
Workorder 14001780
Received 06/24/2014

Lab ID 14001780-001
Matrix Blood
Patient Name 4047B
Patient ID 4047B
Container Type Clear vial

Collect Dt/Tm Not Given
Source Not Given

Approx Vol/Weight Not Given

Receipt Notes None Entered

Table with 5 columns: Analysis and Comments, Result, Units, Reporting Limit, Notes

4047B Pyrrolidinophenone Panel, Blood

Analysis by High Performance Liquid Chromatography/
Tandem Mass Spectrometry (LC-MS/MS)

MDPPP None Detected ng/mL 5.0

Synonym(s): 3',4'-Methylenedioxy-alpha-pyrrolidinopropiophenone

MDPPP is a psychoactive stimulant of the pyrrolidinophenone series that is structurally related to pyrovalerone and alpha PVP. In general, psychoactive stimulants have temporary effects on the psychoneurotic system. In addition, they seem to have a much higher tendency to cause side effects such as paranoia, hallucinations, and schizophrenic or psychosis like symptoms. Toxicology results from an 18 year old man who presented to the ER after smoking 'Spice' with severe agitation, hallucinations, and prolonged psychosis showed cannabicyclohexanol in serum and MDPPP, JWH-072, and MDA in blood, urine, and cerebrospinal fluid. No blood concentration data was reported. Some pyrrolidinophenones are known to have limited stability in biological specimens related to pH, collection tube, and storage temperature. Results are those obtained at the time of analysis. Negative results should be interpreted with caution.

in the serum at approximately 100 ng/mL. A blood/plasma ratio has not been established. Some pyrrolidinophenones are known to have limited stability in biological specimens related to pH, collection tube, and storage temperature. Results are those obtained at the time of analysis. Negative results should be interpreted with caution.

This test was developed and its performance characteristics determined by NMS Labs. It has not been cleared or approved by the US Food and Drug Administration.
